

ST DENIS SCHOOL

ANNUAL REPORT
2023

SCHOOL CONTEXT

St Denis School is a Catholic primary school in the Joondanna Parish in Western Australia with a current enrolment of 250 students spanning from Pre-Kindy through Year 6. Established in 1951 by the Servite Friars and the Sisters of Mercy, our school embodies a rich tradition of fostering an environment that integrates love, truth, and learning.

Our commitment to providing a holistic educational experience is reflected in our developmental learning approach, Catholic ethos, wellbeing programs, and inclusive philosophy. The integrated curriculum covers all learning areas, placing a strong emphasis on literacy and numeracy as foundational pillars of academic excellence

To further enhance our students' educational journey, we have recently adopted Auslan as our Languages subject and implemented weekly Lighthouse Maths sessions, aiming to extend their problem-solving and critical thinking skills. Complementing our academic focus, our school proudly offers a range of wraparound student support services and an Outside School Hours Care program, addressing the diverse needs of our families.

Situated within a vibrant community, St Denis School ensures that learning extends beyond the classroom. Our students actively engage in a variety of enriching extra-curricular activities and community events, contributing to an overall enhanced school experience. A notable example is our Year 5 students and their families attending a Making Jesus Real Surf Camp, which not only aligns with the Health and Physical Education Curriculum but also integrates seamlessly with the Religious Education learning area. We take pride in celebrating the diverse cultures, skills, and talents of our students, fostering a sense of community pride and inclusivity within our school's dynamic environment.

At St Denis, we are dedicated to nurturing each student to reach their full potential and shaping confident individuals with a strong foundation in Catholic values.

Satisfaction with the school

During the 2023 school year parent satisfaction has been of a very high level. Parent feedback from P&F meetings, social events, parent teacher interviews and the parent climate survey is largely positive. Families have indicated satisfaction of pastoral care, educational and support programs offered by the school.

At parent sibling interviews for 2023 many parents mentioned that they are made to feel welcome and that all staff are very personable, going above and beyond.

Parent feedback indicates that they are appreciative of with the high number of extra-curricular activities offered by a single stream school. They are also impressed with the generosity of the staff giving of their own time to provide these activities for the students in their care.

In addition, P&F events are well attended which indicates evidence of the school having a strong sense of connectedness to the school community.

Student satisfaction is gauged on student attendance, engagement and participation in the school. The students are always positive and engaged in activities within the school.

Goal 4: ECE Position Statement about the pedagogy of play: Consistent approach across the early years, PLC dedicated to the process
